

Flower Food 300

fresh cut flower food

powder

Flower Food 300 fresh cut flower food provides the nutrition flowers need for maximum consumer enjoyment. This product is effective in all water qualities and with any variety of fresh flowers.

For Retail Floral Shops and End Consumers

Features and Benefits

- Vase and OASIS® floral foam solution for full flower development and optimum vase life.
- Enhances flower colors, keeping them more brilliant.
- This solution performs well in all water qualities.
- Helps keep stems flowing freely, keeping flowers hydrated.

Directions for Use

- Remove foliage from the flower stem area which will be located below the solution level in the flower container.
- Recut flower stems with a clean, sharp knife or cutting tool, taking off 1 inch.
- Place flower stems in a clean bucket of Floralive Flower Food for store floral displays or to keep in the cooler until time for arranging.
Add additional solution as needed.
- After treatment with Floralive® Flower Food 300, make sure a packet of flower food is provided to customers with their floral purchase to aid in the beauty and freshness of their flowers. Flower food packets are available for use to mix with 1 pint and 1 quart volumes of water.

Dosage

- Dissolve 10 grams Floralive® Flower Food 300 per 1 quart / 1 liter of water.
