

CHINESE CABBAGE VARIETIES COMPARISON CHART

Variety	Part #	Type	Days to Maturity	Size/Weight	Disease Resistance	Features
Tokyo Bekana	2251	Mini, Green	18 baby; 45 full size	10–12" tall	–	For bunching or baby leaf. Bright, light-green curly and ruffled leaves add loft and weight to salad mixes. Regrows for multiple cuttings. At full size, tender leaves on narrow, white petioles can be sold as a bunched green.
Minuet	2901	Mini, Green	48	9" tall	HR: DM	Light, sweet taste. Slow to bolt. Tolerant to bottom rot and black speck.
Rubicon	2246	Full-size, Green	52	11" tall; 5½–6½ lb.	–	Blemish-free, deep-green leaves and broad, white ribs, with a creamy yellow, blanched interior. The flavor is sweet, tangy, juicy, and delicious! Slow bolting. Tolerant to black speck.
Bilko	2814G CG	Full-size, Green	54	12" tall	HR: CR, FY	Slow-bolting heads have a good, mild, sweet flavor.
Citrus	4271	Full-size, Green	54	11" tall; 5½–6 lb.	–	Similar to standard Napa types except for the interior color and a distinctive orange ring around the edges of the cut stems. Suitable for cooking, kimchi, salads, and slaws.
NEW Haku	4920	Full-size, Green	55	11" tall; 5½–6 lb.	IR: CR, DM	Widely adapted. Very good performance along the Eastern Seaboard, as well as in Arizona and California. Good tolerance to heat and tipburn.
Merlot	4171	Full-size, Red	60	11–12" tall	–	Improved Red Dragon type. Full, bulky, and dense heads. Very attractive dark red.
NEW Red Trumpet	4921	Full-size, Red	60	11–12" tall	–	Elegant red michihili type. Tall, fancy, vibrant red heads. Good for salads, slaws, and attractive red kimchi.
