

Head Lettuce Planting Program

Full-sized heads of lettuce are an essential product to have at market and on the farm stand. Variety selection is key in providing your customers with a continuous supply of lettuce throughout the season. We help take the guesswork out of your lettuce succession plantings by providing the following recommended planting program. NOTE: Even heat-tolerant varieties have upper limits of temperatures they can withstand. In areas such as the South and Midwest, we recommend avoiding planting lettuce during the warmest part of the season.

			Cool/Spring	Warm/Summer	Cool/Fall	Cold/Winter
Butterhead	Green	Nancy	<div><div></div><div></div></div>	<div><div></div><div></div></div>
