

# GREENS & LETTUCE SALAD MIXES

Johnny's offers exclusive mixes of lettuces and greens that can be harvested at 3–4 weeks for use as salad mix. Our mixes are balanced for color, texture, and flavor. Brassica greens germinate and grow faster than lettuces but are susceptible to flea beetles; our mixes separate these groups so you can synchronize your sowings and optimize the use of row covers to control flea beetles. *Varieties are subject to change depending upon availability.*

## Greens

**Cheap Frills Mix 4087** 21 days.  
**EXCLUSIVE! Our frilliest greens mix.** A colorful kaleidoscope of highly textured leaves which provides visual interest and excellent loft. An exceptional combination of textures, flavors, and colors with a higher proportion of both red and green, frilled leaves.

**Elegance Greens Mix 653** 21 days.  
**EXCLUSIVE! Stunning colors.** Colors range from dark- and bronze-red to bluish green. The combination of flavors and textures makes this a beautiful salad. Includes pac choi, red mustard, mizuna, and leaf broccoli.

**Ovation Greens Mix 2697G** 21 days.  
**EXCLUSIVE! Organic greens mix.** A great combination of both mild and spicy ingredients. Includes red mustard, mizuna, tatsoi, kale, and arugula. NOTE: To increase the expression of red coloration, sow seed more sparsely. **OG**

**Premium Greens Mix 650** 21 days.  
**EXCLUSIVE! Dynamic range of leaf shapes and colors.** An amazing palette of greens and reds in an array of leaf shapes and textures. The flavors are equally diverse: spicy to mild to slightly sweet. Includes red mustard, red mizuna, green mustard, Chinese cabbage, and tatsoi.

**Kalebration Kale Mix 4091** 29 days.  
**EXCLUSIVE! Gorgeous baby kale mix.** A brilliant blend of rich greens and reds that shows deep color contrast in all growing slots. Striking the right balance of colors and textures, this mix can be marketed on its own or added to baby leaf lettuce. Strong regrowth allows for cut-and-come-again harvesting. Selected for baby-leaf production.

## Lettuce

**Allstar Gourmet Lettuce Mix 2301** 28 days.  
**EXCLUSIVE! Our most popular mix.** This specially designed blend combines a variety of colors with ruffled edges and unique leaf shapes for a balanced mix with high loft, interesting texture, good shelf life, and gourmet appearance. Includes green oakleaf, red oakleaf, green romaine, red romaine, lollo rossa, and red leaf lettuces.

**Encore Lettuce Mix 2366G** 28 days.  
**EXCLUSIVE! An all-organic lettuce mix.** A stunning mix of different colors, shapes, and textures. Similar to our popular Allstar Gourmet Lettuce Mix, but organic. Includes green oakleaf, red oakleaf, green romaine, red romaine, lollo rossa, red leaf, and bibb lettuces. **OG**

**Wildfire Lettuce Mix 2850** 28 days.  
**EXCLUSIVE! High percentage of red leaves.** This blend was created for high color contrast of the darkest red varieties paired with vibrant green varieties. Includes green oakleaf, red oakleaf, green romaine, red romaine, and red leaf lettuces.

**Five Star Greenhouse Lettuce Mix 192** 35 days. (HR: DM.)  
**EXCLUSIVE! Strong downy mildew resistance.** The components were selected for their uniform growth rates, ability to hold their color (especially red leaf varieties) and resistance to downy mildew. Includes green oakleaf, red oakleaf, red romaine, green leaf, and red leaf lettuces. Ideal for fall and winter production under protected cover. MT0-30. **▲▲**

**Starstruck Lettuce Mix 4462** 38 days.  
**EXCLUSIVE! Crunchy, juicy blend.** Everyone wants crunch in their mixes, but crunchy baby leaf varieties can be hard to find... until now! We selected crunchy and crispy types — including new, never-before-seen varieties from independent breeders — and formulated this mix to strike the right balance of color, leaf shape, and growth rate. For maximum crunch, grow from early spring to late fall. Includes red romaine, green romaine, green oakleaf, and red oakleaf lettuces. MT0-30.

# MICROGREENS MIXES

We select microgreen varieties with superior performance, yield, visual appeal, and — most importantly — flavor. We offer five exclusive mixes, as well as more organic options, to help you bring new and unique products to the marketplace. *Varieties are subject to change depending upon availability.*

**Kalefetti Mix**

**Rainbow Sprinkles Mix**

**Mild Micro Mix**

**Confetti Mix**

**Spicy Micro Mix**

## **Kalefetti Mix 4175M**

10-15 days. *Brassica spp.*

**EXCLUSIVE! Vivid kale colors.** A new way for kale-lovers to get a daily dose. Colorful and nutritious mixture formulated for appearance and overall performance in microgreen production. Includes a variety of leaf types in bright green, dark green, and purple with green, pink, and purple stems. Mild kale flavor. 💧

## **Mild Micro Mix**

10-15 days. *Brassica spp.*

**EXCLUSIVE! Easy to grow.** This mix of mildly flavored brassicas contains mizuna, cabbage, kale, and kohlrabi. Mostly green with a touch of red. 💧

**2566G Organic OG**  
**2566 Conventional**

## **Rainbow Sprinkles Mix**

16-25 days. *Beta vulgaris*

**EXCLUSIVE! The best of beets and chard.** A bright and cheerful mix that offers maximum color at the micro stage. Includes both red and green, lofty leaves as well as a rainbow of stem and vein colors: bright and light pink, orange, red, and yellow. Varieties are selected for similar maturity dates and seed sizes, so trays germinate evenly. 💧

**4106MG Organic OG**  
**4106M Conventional**

## **Confetti Mix**

10-15 days. *Raphanus sativus*

**EXCLUSIVE! Easy, fast, and colorful.** A vibrant, mildly spicy blend of purple and green radish leaves with red, purple, and pink stems. Micro radish greens are lofty and add weight to a mix, resulting in a heavier bagged product. A visually stunning, flavorful mix for ultimate plate appeal. 💧

**4119MG Organic OG**  
**4119M Conventional**

## **Spicy Micro Mix**

10-15 days. *Brassica spp.*

**EXCLUSIVE! Great for beginners.** A colorful blend of red and green mustards with various textures. Spicy flavor pairs well with the Mild Micro Mix. 💧

**2567G Organic OG**  
**2567 Conventional**
