

SALANOVA® VARIETIES COMPARISON CHART

Incised Types

Open heads with narrow stems on deeply lobed leaves. When cut straight across above the growing point, they release a high volume of lofty, bite-size leaves. Vigorous habit is great for multiple cuts and both hand and mechanical harvesting.

SALANOVA INCISED. Highly uniform, deeply incised leaves with Lollo-like frill. Curled structure adds considerable loft. Crispy yet flexible leaf and ribs.

SALANOVA SWEET CRISP. Sweet, romaine-like flavor with crisp, juicy ribs. Heavy texture and excellent yield potential. Fancy, jagged margin all the way down the ribs creates an attractive leaflet on the plate.

Part #	Variety	Days	Disease Resistance	Color
3052JP	Salanova® Green Incised	53	HR: DM (EU 16–30, 32, 33; US 5–9), Nr. IR: LMV.	Light
3053JP	Salanova® Red Incised	53	HR: DM (EU 16–33; US 5–9), Nr. IR: LMV.	Light w/ green base
3054JP	Salanova® Green Sweet Crisp	50	HR: DM (EU 16–32, 34, 36; US 5–9), Nr. IR: LMV.	Medium dark
3055JP	Salanova® Red Sweet Crisp	55	HR: DM (EU 16–30, 32, 33; US 5–9), Nr.	Med-dark w/ red ribs

Cored Types

Compact heads with a tight core and impressive number of fully mature, yet baby-sized leaves. One circular cut around the core separates the many uniform leaves. These varieties withstand multiple field cuts, and are ideally suited for marketing as true mini heads.

SALANOVA BUTTER. Attractive rosette-like habit with rounded, wrinkled leaves for a truly striking presentation. Develops characteristic butteriness at full maturity.

SALANOVA OAKLEAF. Wavy, lobed leaves and an interwoven arrangement create stunning heads, even at an early stage. Excellent flavor and texture through maturity.

SALANOVA BATAVIA. Scalloped, semi-savoy leaves add crunch and juicy texture. Exceptional bolt and tipburn tolerance in a compact, heavy head.

Part #	Variety	Days	Disease Resistance	Color
3056JP	Salanova® Green Butter	55	HR: DM (EU 16–37; US 5–9), Nr.	Dark
3057JP	Salanova® Red Butter	55	HR: DM (EU 16–37; US 5–9), Nr.	Dark w/ green base
3058JP	Salanova® Green Oakleaf	55	HR: DM (EU 16–37; US 5–9), Nr.	Medium dark
3059JP	Salanova® Red Oakleaf	57	HR: DM (EU 16–32, 34, 36; US 5–9), Nr.	Dark w/ green base
4185JP	Salanova® Green Batavia	55	HR: DM (EU 16–32, 34, 36; US 5–9), Nr. IR: LMV.	Medium
4186JP	Salanova® Red Batavia	59	HR: DM (EU 16–32, 34, 36; US 5–9), Nr.	Medium w/ green base

NOTE: All Salanova seed is MTO-30 (tested for presence of Lettuce Mosaic Virus) and seeds are pelleted with NOP-compliant material for sowing ease. Plant Variety Protected.
