The EarthWay® Vegetable Seeder is lightweight and easy to handle, making it a great option for the small-scale market grower and home gardener alike. The multiple plate options accommodate a diverse range of seed sizes. Its simple construction from corrosion-resistant materials requires minimal maintenance year after year.

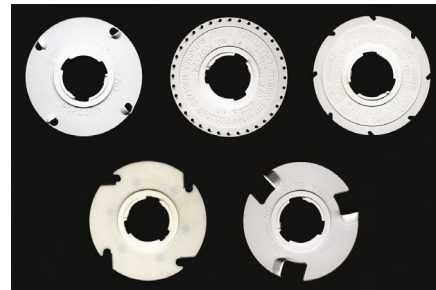

Includes six easily changeable seed plates: sweet corn, beans, peas, radish, carrot, and beet, many of which can be used for sowing other common vegetable seeds.

All items listed below may be ordered directly from Johnny's Selected Seeds.
