

## EZ-FLO FERTILIZER INJECTOR COMPARISON CHART

	EZ-Flo Fertilizer Injector Model		
	Model #9205	Model #7160	Model #7162
<b>Total Capacity (liquid)</b>	Approximately 0.75 gal (2.8 L)	Approximately 1.0 gal (3.7 L)	Approximately 2.5 gal (9.5 L)
<b>Fertilizer Capacity</b> (Refers to water-soluble fertilzier)	Maximum 5 lbs. (2.25 kg)	Maximum 7 lbs. (3.1 kg)	Maximum 10 lbs. (4.5 kg)
<b>Pressure Rating *</b>	Low (up to 50 PSI maximum)	High (up to 80 PSI maximum)	Low (up to 50 PSI maximum)
<b>Minimum Water Flow Required</b>	2.0 gal/min (7.6 L/min) via Standard Hose Bib 2.5 gal/hr (9.5 L/hr) via Ball Valve Coupling		
<b>Adjustable Feed Ratio Range</b>	Ratio of water to fertilizer adjustable from 1000:1 on Slow setting to 100:1 on Fast setting		
<b>Water Volume to Empty Tank</b>	750 gal (2.8 kl)/ Slow setting 75 gal (.28 kl)/ Fast setting	1,000 gal (3.7 kl)/ Slow setting 100 gal (.37 kl)/ Fast setting	2,000 gal (7.5 kl)/ Slow setting 200 gal (.75 kl)/ Fast setting
<b>Physical Specifications</b>	6" x 6" x 8"; 2 lbs. (15cm x 15cm x 20cm; .90 kg)	7" x 7" x 8"; 3 lbs. (18cm x 18cm x 20cm; 1.35 kg)	10" x 10" x 14"; 7 lbs. (25cm x 25cm x 35cm; 3.1 kg)
<b>Includes:</b>	Hose bib adapter with US standard threads, 1/4" nylon barbed tubing, and tubing valves.		
<b>Additional Materials:</b>	If the user's hose bib does not already have a backflow preventer, an anti-siphon valve (#9439) will also need to be purchased. If connecting to a sprinkler or drip system, the EZ-Flo Injector must be connected after a zone valve in the system; a ball valve slip coupling connector (#9486) is available for that.		

\* Low-pressure models can only be installed in on/off pressure applications where the system is only under pressure when it is in use (ie, downstream of the control valve or timer). The high-pressure model can be installed in either constant pressure or on/off pressure applications.
