

## HEAD LETTUCE PLANTING PROGRAM

Bergam's Green

Pomegranate Crunch

Green Forest

Sunland

Nancy

Red Cross

Full-sized heads of lettuce are an essential product to have at market and on the farm stand. Variety selection is key in providing your customers with a continuous supply of lettuce throughout the season. We help take the guesswork out of your lettuce succession plantings by providing the following recommended planting program. NOTE: Even heat-tolerant varieties have upper limits of temperatures they can withstand. In areas such as the South and Midwest, we recommend avoiding planting lettuce during the warmest part of the season.

	Type	Varieties
<b>EARLY SEASON</b>	Green Leaf	Bergam's Green, Tropicana
	Red Leaf	New Red Fire
	Green Romaine	Green Forest
	Romaine Hearts	Sparx, Sunland
