DRIP IRRIGATION ACCESSORIES

7043 5/8" Perma-Loc x Perma-Loc Valve: Standard Perma-Loc fittings on both sides. For use with the Irrigator 100', 250' or 1,000' systems.

7039 5/8" Perma-Loc x Barb Valve: Standard Perma-Loc fitting on one side; barb type fitting on the other. For use only with the 2,000' kit.

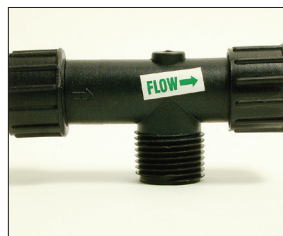

9017 Regulator/Screen Filter Assembly: Adjusts hose pressure down to an acceptable level of 10 psi for inlet to the Irrigator system.

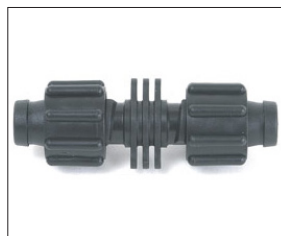

9657 Drip Tubing: 5/8" diam. 100' roll. Pre-cut drip orifices, spaced every 12".

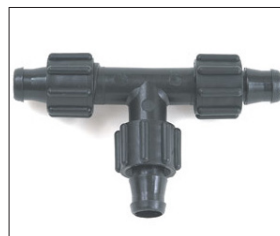

9060 Distribution Tubing: 5/8" diam. 50' roll without drip orifices.

9656 Well-Water Filter: Filters out particles that might clog drip orifices.

9014 5/8" Perma-Loc Coupling: Used to connect two pieces of tubing and mend punctures.

9006 5/8" Perma-Loc Tee Fitting: "T"-type tubing connection.

9010 Elbow Fitting: 5/8" Perma-Loc 90° tubing connection.

9655 Extra 5/8" Fitting Pack: Includes 2 tees, 1 elbow, and 1 coupling. Expands any 1,000' Irrigator Kit or smaller to irrigate up to 3 more rows.
