2027 Organic Index

NEW Huntress
Upright, vigorous amaranthus selected for rose-pink plumes.

Renee Prospera® Active DMR

String Theory

Maxigolt *Now available organic!*

For over 50 years, Johnny's research, trialing, and breeding programs have brought you a diverse selection of varieties and products for certified organic production. We are pleased to introduce over 20 new organic products this year to meet your growing needs.

We trial all our varieties to perform under the rigors of organic growing conditions at our own certified organic Research Farm and with trialing partners across the country. Temperature variations, weed competition, pests, and plant diseases can all threaten the vitality of your crops. The seeds you buy from Johnny's give you the best possible odds of overcoming those challenges. We guarantee it.

Visit **Johnnyseeds.com** to access more resources:

- Our Safe Seed Pledge
- Johnny's Organic Certificate
- Johnny's Organic Product Verification Listing
- OMRI and WSDA Certificates, Labels, and Technical Growing Information

Please contact us for additional supporting documentation for your organic certification needs.

Organic Product Designation

Plants and seeds marked with the OG symbol are certified organic. These products are grown and handled in strict compliance with the USDA National Organic Program (NOP). Johnny's growing and handling operations are certified organic by Maine Organic Farms and Gardeners Association (MOFGA).

Supplies, such as fertilizers and pest and disease controls, marked with the OG symbol are approved for use in certified organic production. These products are reviewed and registered by OMRI or WSDA in accordance with the NOP regulations.
