Rainbow Sprinkles Mix

Microgreen Mixes (16–25 days)

Rainbow Sprinkles Mix

16-25 days. *Beta vulgaris*

EXCLUSIVE! The best of beets and chard. A bright and cheerful mix that offers maximum color at the micro stage. Includes lofty red and green leaves as well as a rainbow of stem and vein colors: bright and light pink, orange, red, and yellow. Varieties are selected for similar maturity dates and seed sizes, so trays germinate evenly. Varieties are subject to change depending upon availability. ☞

Growing Microgreens

CULTURE: Grow in a greenhouse or protected area. Follow the germination guidelines for the specific variety being grown. However, you can generally be successful by following the guidelines for brassica family members: Grow in shallow trays or 20-row flats. Broadcast seed thickly on the media surface with seeds $\frac{1}{8}$ – $\frac{1}{4}$ " apart, press seeds firmly into media for maximum soil contact, and cover lightly with sowing mix, vermiculite, etc. Ideal soil temperature is 75°F (24°C) until germination, then reduced to 60°F (16°C). Optimal ambient temperatures are variety-specific, but 65–75°F (18–24°C) is generally a favorable range. Temperatures above 75°F can increase disease pressure and inhibit germination. Bottom water or mist to prevent sowing mix from splashing on the seedlings. Maintain even moisture and do not allow sowing medium to dry out. If fertilizing, incorporate fertilizer into the sowing mix before sowing, or use a bottom-watering system for liquid applications to avoid residue on the leaves.

HARVEST: Harvest once cotyledons have fully developed, or once the first true leaves begin to emerge, depending upon your market. Typically, micros range from $\frac{1}{2}$ –2" in height. For most items this will be 2–4 weeks after sowing, depending on the variety, growing conditions, and final product size desired. Cut with scissors or a sharp knife and minimize handling to reduce damage. Microgreens must be washed before serving. Shelf life ranges from 5–10 days under proper storage conditions.
