

Actinovate®

BIOLOGICAL FUNGICIDE

| Product Handling Guidelines |

Actinovate® SP & Actinovate® Lawn and Garden Product Handling Guidelines

Extended Shelf Life

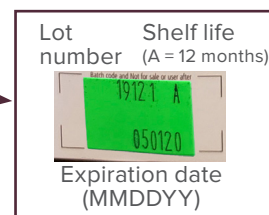

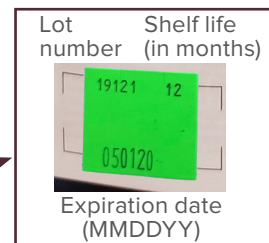

Actinovate® Biological Fungicide contains live spores of the active ingredient *Streptomyces lydicus* WYEC 108. There is an expiration date printed on every container label. Effective May 1, 2019, all *Actinovate SP* and *Actinovate Lawn and Garden* packages will have a shelf life of 12 months after the date of manufacture. (This change will not affect the *Actinovate SP* or *Lawn and Garden* packages in California, which will retain the 6-month shelf life at this time.)

SP
18 oz. bag

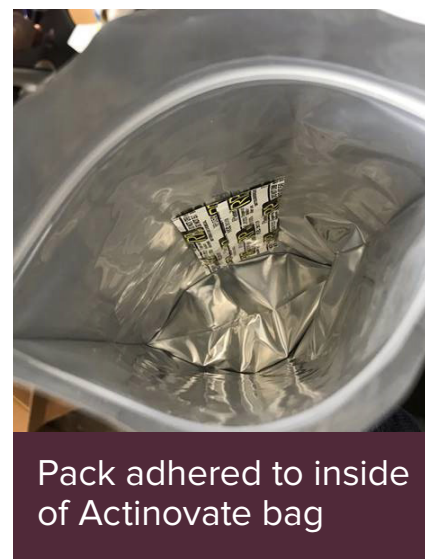

Lawn & Garden
18 oz. bag

Packaging Enhancement

- ▶ Effective May 1, 2019, *Actinovate SP* and *Actinovate Lawn and Garden* bags contain packs to extend the shelf life.
- ▶ The packs are adhered to the interior of the *Actinovate SP* and *Actinovate Lawn and Garden* packaging with a proven adhesive.

Pack adhered to inside of Actinovate bag

Storage and Handling

- ▶ Unopened *Actinovate SP* and *Actinovate Lawn and Garden* packaging has a shelf life of 12 months when stored under recommended labeled conditions (40–77°F)
- ▶ Unopened *Actinovate SP* and *Actinovate Lawn and Garden* bags retain the labeled amount of active ingredient (CFUs = colony-forming units) throughout the 12 months and can be applied up until the date of expiration
- ▶ Product should be used promptly after opening the package. Apply any unused product within 4 months of opening and before the expiration date.
