## PARTS INCLUDED

- Rake Head (folded for shipping)
- Wooden Handle
- 2 #10 x ¾ inch screws

## REQUIRED FOR ASSEMBLY

- **6-point** box end wrench or socket wrench, Size 10 mm
- Phillips head screwdriver

## ASSEMBLING YOUR RAKE

1. Fasten the rake head to the handle using the screw provided.

3. Adjust the rake head to your desired angle and tighten bolts to hold it in place.

2. Loosen the bolts on the top of the rake head so you will be able to adjust it to your desired angle. \*Exact wrench size is recommended to avoid stripping the bolts.

4. Fasten the support arms using a Phillips head screwdriver.

**Note:** You may want to bring a wrench out into the garden with you and experiment until you find the most comfortable setting for your body type and the job you are performing.
