

Mixing Instructions: 1-2-3 It couldn't be easier!

1. Select volume of cold water to use from Dilution Rate table below.
2. While stirring, slowly sprinkle in the soluble powder concentrate.
3. Pour solution into your sprayer.

To mix large quantities use a cordless drill with paint-mixer attachment.

1 lb makes 4 quarts

This package of Plantskydd® soluble powder concentrate makes approximately 4 quarts of ready to spray solution.

Landscaping

HOME GARDEN

Proven effective in commercial applications, this 100% natural product is now available to the home gardener and landscape professional. Animals avoid treated ornamental shrubs, perennials and annuals before they bite, not after! Can last up to 6 months over winter on dormant ornamental shrubs and 3 months on most other succulent broadleaf plants. Always treat new growth.

Agriculture & Nursery

FORESTRY

Plantskydd's effectiveness as an animal browse deterrent has been confirmed in operational conditions since 1993 by large forestry companies on millions of conifer and deciduous trees of various species. Plantskydd's effectiveness is attributed to its tenacity in sticking to plants, even under severe snow/rainfall —lasts up to 6 months over winter on dormant seedlings.

PROFESSIONAL GROWER

During the growing season, row crop growers can optimize Plantskydd by diluting each 1 lb / 454 g package in 1.5 to 2 gallons of water—apply every 2-6 weeks depending on growth rate and level of browse. For over winter protection, use full strength (see dilution rates).

Plantskydd®

REPELLENT

DEER • RABBITS • ELK

- **Deer / Elk / Moose**—spray mainly top of plant until wet, but not dripping.
- **Rabbits**—spray stem and lower leaves.
- **APPLY ON DRY PLANTS—Rainfast in 24 hours**
- **Ornamentals**—Plants should be well hydrated prior to treatment. Spray Plantskydd mainly on the leaves of dry plants until wet—avoid blossoms.
- **Always treat new growth.**
- Test sample plants to determine sensitivity. *Needles/leaves darken temporarily after treatment —original color returns in 1 or 2 days.*
- **BULBS**—Dip bulbs in solution. Allow to dry, then plant.
- Apply at temperatures above freezing.
- For best results, apply in early morning or late afternoon. Avoid application in direct, hot sunlight. *Expect some reduction in efficacy in sunny climates (photodegradable).*
- Treating Pine seedlings during bud flush is not recommended (OK before/after bud flush).
- **Safe for use in protecting fruit, vegetables and other food crops against browse damage.** Once plant bears fruit, do not apply onto edible parts of fruit, vegetables and other food crops. Wash fruits and vegetables before eating.

CAUTION

- **DO NOT** ingest powder/solution—wash hands after use.
- If solution comes into contact with eyes or skin, wash/flush with water.
- **Avoid spraying concrete and wood** to prevent discoloration.
- Rinse sprayer, gloves and planting equipment after use.
- If sprayer clogs, rinse in hot water.
- **Important!** Use mixed solution within a few days. Protect from heat.
- Seal unused powder and store in a cool, dry, dark place for up to 5+ years.
- **DISPOSAL:** Rinse empty container thoroughly. —Recycle or dispose with household garbage.
