Operation & Use

1. Set planting depth to desired depth by adjusting Wingnut.
2. Jab Point of Transplanter into the ground. If soil is firm, step on Foot Peg.
3. Press foot on Door Opener to open hole.
4. Drop seedling into the tube.
5. Lift Transplanter out of soil and pull the Hand Trigger to close the door.
6. Repeat.

Johnny's Hand Transplanter will plant a plug or soil block up to 2" in diameter.
