	9056	Y-24	9/64	3.5	1.5	24	0.5-2.5"	Baby Leaf Brassicas, Arugula, Bunching Onion, Crimson Clover, and Millet.
N-6	9838	YYJ-6	1/8	3	1.7	6	4-10"	Basil and Columbine
	9373	YYJ-12	1/8	3	1.7	12	2-5"	Basil.
	7143	YYJ-24	1/8	3	1.7	24	0.5-2.5"	Basil.

* Round seed hole size indicated; alternate shapes are noted.

** Spacings are approximate; always test your seeding rates and adjust as necessary. In-row spacing is determined by # of holes in roller and adjustments to gearing ratios.

*** The terms "small", "medium", and "large" refer to the seed size.

See more rollers on the next page.

7795	YYX-24	5/64	2	1.8	24	0.5–2.5"	Wild Arugula, Claytonia, Watercress, and Amaranth (seeds heavy)
7796	YYX-36	5/64	2	1.8	36	0.25–1.25"	Wild Arugula, Claytonia, Watercress, and Amaranth (seeds heavy)
9517	J-2	Half Moon Shape			2	12–28"	Burdock, Bulb Fennel, and small-seeded Cucumbers
9218	J-4	Half Moon Shape			4	6–14"	Burdock, Bulb Fennel, and small-seeded Cucumbers
9379	J-8	Half Moon Shape			8	3–7"	Burdock, Bulb Fennel, and small-seeded Cucumbers
9610	N-6	Large Slot			6	4–10"	Small-seeded Beans and Corn
7791	XY-4	Large cross-shaped			4	6–14"	Large-seeded Carrots and Lettuce
9435	XY-12	Large cross-shaped			12	2–5"	Large-seeded Carrots and Lettuce
9649	XY-24	Large cross-shaped			24	0.5–2.5"	Large-seeded Carrots and Lettuce
7810	XY-36	Large cross-shaped			36	0.25–1.25"	Large-seeded Carrots and Lettuce
9483	XYY-12	Small cross-shaped			12	2–5"	Small-seeded Carrots and Lettuce, and Celtnce.
9113	XYY-24	Small cross-shaped			24	0.5–2.5"	Small-seeded Carrots and Lettuce, and Celtnce.
7811	XYY-36	Small cross-shaped			36	0.25–1.25"	Small-seeded Carrots and Lettuce, and Celtnce.
9821	Z-Blank	No predrilled hole. Create your own custom roller by simply drilling holes for desired seed size and shape.					

* Round seed hole size indicated; alternate shapes are noted.

** Spacings are approximate; always test your seeding rates and adjust as necessary. In-row spacing is determined by # of holes in roller and adjustments to gearing ratios.

*** The terms "small", "medium", and "large" refer to the seed size.

The chart above includes spacing ranges and crop recommendations. NOTE: There may be multiple rollers that will achieve the same in-row spacing for a crop. Example: You can sow small-seeded beets at 4" spacing using either an LJ-6 or LJ-12 roller.

Seed Roller Starter Packs

Seed Roller Starter Pack 7024

For seeding the widest variety of crops. Includes one each:

- **X-24** (Brussels sprouts, cabbage, cauliflower, greens, and raw onion)
- **F-24** (radish)
- **LJ-12** (raw beets, size #13 pelleted beets, carrots, lettuce, and onion)
- **XY-24** (raw carrots and lettuce)
- **N-6** (small beans and corn)

Sunflower Seed Roller Starter Pack 7959

Quickly and accurately seed a wide variety of specialty sunflowers. Includes one of each Jang roller: AA-6, C-6, and G-6. Sows approximately 2–3 seeds per drop at your desired spacing between 4–10" apart. For use with all JP Series seeders. See our Grower's Library for details and notes from our Jang Seeder roller trials.

Baby Leaf Seed Roller Starter Pack 6931

Sow a wide variety of baby leaf greens. Includes one of each Jang roller: Y-24, X-24, F-24, and XY-24 for seeding Asian greens, mustards, brassicas, raw lettuce, and more. We recommend setting your seeder gears to seed at 0.5" apart for the ideal seeding density.
