## HARVEST A 30" BED IN A SINGLE PASS

### Baby Leaf Harvester 7980

**EXCLUSIVE! Harvest a 30" bed in a single pass.** Quickly harvest baby leaf crops with this lightweight, drill-powered harvester that is a fraction of the price of larger, battery-powered greens harvesters. Easy to push and maneuver inside hoopouses and greenhouses. Ideal for baby leaf greens, spinach, mesclun mixes, and herbs. Fully adjustable cutting height, conveyor belt angle, and winnower speed allow for harvesting a variety of crop sizes. A simple pull-cord depresses the drill trigger for smooth, easy operation. Rear-mounted collection bag opens from the side for easy removal of harvested greens. Made in France by Terrateck.

## JANG JP SEEDER

### Jang JP-1 Seeder 7319

An easy choice for the smaller-scale market grower and the industry standard for precision seeding. Allows highly accurate sowing in a wide variety of soil conditions. A multitude of custom rollers available for unlimited seed spacing options. Handle height is adjustable and offset for comfortable footpath operation.

### Baby Leaf Pack 6931

Includes one of each Jang roller: Y-24, X-24, F-24, and XY-24 for seeding Asian greens, mustards, brassicas, raw lettuce, and more. We recommend setting your seeder gears to seed at 0.5" apart for the ideal seeding density.
