

ORGANIC PRODUCT INDEX

Since the 1970's, Johnny's research, trialing, and breeding programs have brought you a diverse selection of varieties and products for certified-organic production. We are pleased to introduce over 35 new organic products this year to meet your growing needs.

All of our organic varieties are trialed to perform under the rigors of organic growing conditions. Temperature variations, weed competition, pests, and plant diseases can all threaten the vitality of your crops. The seeds you buy from Johnny's give you the best possible odds of beating those challenges.

WE GUARANTEE IT.

Johnny's is proud to be one of the nine original signers of the Safe Seed Pledge in 1999. We continue our pledge that we do not knowingly buy or sell any genetically engineered (GMO) seeds or plants. Visit Johnnyseeds.com/organic-growing to access more resources:

- Our Safe Seed Pledge
- Johnny's Organic Certificate
- Johnny's Organic Product Verification Listing
- OMRI Certificates, Labels, and Technical Growing Information

Please contact us for additional supporting documentation for your organic certification needs.

CERTIFIED ORGANIC PRODUCT VERIFICATION

Johnny's plants and seeds designated with an **OG** symbol in our catalog and on our website are certified organic and are grown and handled in strict compliance with the USDA National Organic Program (NOP). Johnny's is a certified organic grower and handler by USDA-accredited Maine Organic Farmers and Gardeners Association (MOFGA) Certification Services.

Supplies such as fertilizers and pest and disease controls that are marked with the **OG** symbol have been approved by the Organic Materials Research Institute (OMRI).

If you have any question as to whether a particular product can be used for organic production, we encourage you to check with your local certifying agency.
