

## Quick Dip 100

### Instant hydrating treatment

*liquid*

Quick Dip 100 instant hydrating treatment helps maximize solution uptake and keeps flower stems free flowing.

#### Features and Benefits

- Ready to use solution, no mixing required.
- Helps reduce flower scrap.
- Ideal for all operations, saves space, time and labor.
- Aids in reducing bent neck and droopy stems.
- A must for roses, gerbera daisies and field grown crops.
- Can be used on all flower varieties including premade cash-and-carry bouquets.

#### Directions for Use

- Follow the instructions on the product label.
- Remove foliage that will be below the solution level in container.
- Recut flower stems 1 - 3" with a clean knife or cutter.
- Place stems in two inches of Quick Dip<sup>®</sup> instant hydrating treatment for one second.
- Immediately place flowers in a Florallife<sup>®</sup> Fresh Flower Food solution.
- Discard used solution daily or if it becomes cloudy or contaminated with debris.
- Never pour used solution back into the original bottle.

#### Dosage

- Ready-to-use solution—do not dilute.

#### Container Sizes Available

- 1 pint (16 oz.) / 0.5 liters
- 1 gallon / 3.78 liters
- 2.5 gallons / 9.45 liters w/pump
- 5 gallons / 18.9 liters
